PROFESSIONAL DEVELOPMENT AND CLINICAL LEADERSHIP IN CANCER MODULE

LBR7723 Professional Development and Clinical Leadership in Cancer Module

Location: Online delivery

Credits: 20

Module start: 24th August 2026

This module is aimed at graduate healthcare practitioners who wish to expand their knowledge and skills in Professional Development and Clinical Leadership in Cancer Care.

It's vital that anyone working within cancer is supported with the appropriate education and reflective practice to develop and drive high-quality care. This module will develop your core leadership skills and behaviours to care for people affected by cancer, and provide underpinning cancer knowledge for the workforce.

The module can be studied at Level 6 or 7 depending on your previous qualifications, and as a standalone module or as part of our Applied Cancer Practice Course.

Delivery of the module is online, incorporating a variety of learning activities, such as online pre-recorded lectures, live evening webinars and action learning sets.

You are expected to participate and engage with the module material through our virtual learning platform. You will be assessed via in-person presentation. Tutorial support will be offered via video tutorials, MS Teams calls, chat forums and email.

Content covered includes:

- Political awareness
- Leadership Styles and Theories
- Change Management
- Reflection theories/models
- Teams and team-working
- Coaching and supervision
- Human Factors and Ergonomics
- Personal Resilience
